You can email me asking the presence of a specific title in a fullset, but you can be 99,9% sure it is present.

As well, please keep in mind i had dozens of thousands of copies of those games in hands during the last 20 years, and i only kept, each time, the **VERY BEST** copies for my personal collection, so you can be certain you'd get the best condition possible.

As an example, for the PC Engine factory sealed fullset, i got sometimes more than 50 copies for a precise title, and i kept the **BEST** one out of the 50 for myself.

That gives you an idea of the mintiness of such collection. You get the best of the best.

For your information, I live in a pet-free/smoke-free home. Games being stored out of direct sunlight.

Shipping will have to be calculated, depending where you're based, and which fullsets you'd buy.

It'll be sent by online tracked fully insured express airmail company (EMS,Fedex,UPS..).

Feel free to make **SERIOUS** offers for each fullset separately, but please don't email me to ask for each title separately, as i don't have time for this. I'd be glad to answer most questions though. The only split i'd allow would be for each fullset, i'll take into consideration serious offers.

Winner pays by **PAYPAL** or Bank Wire Transfer.

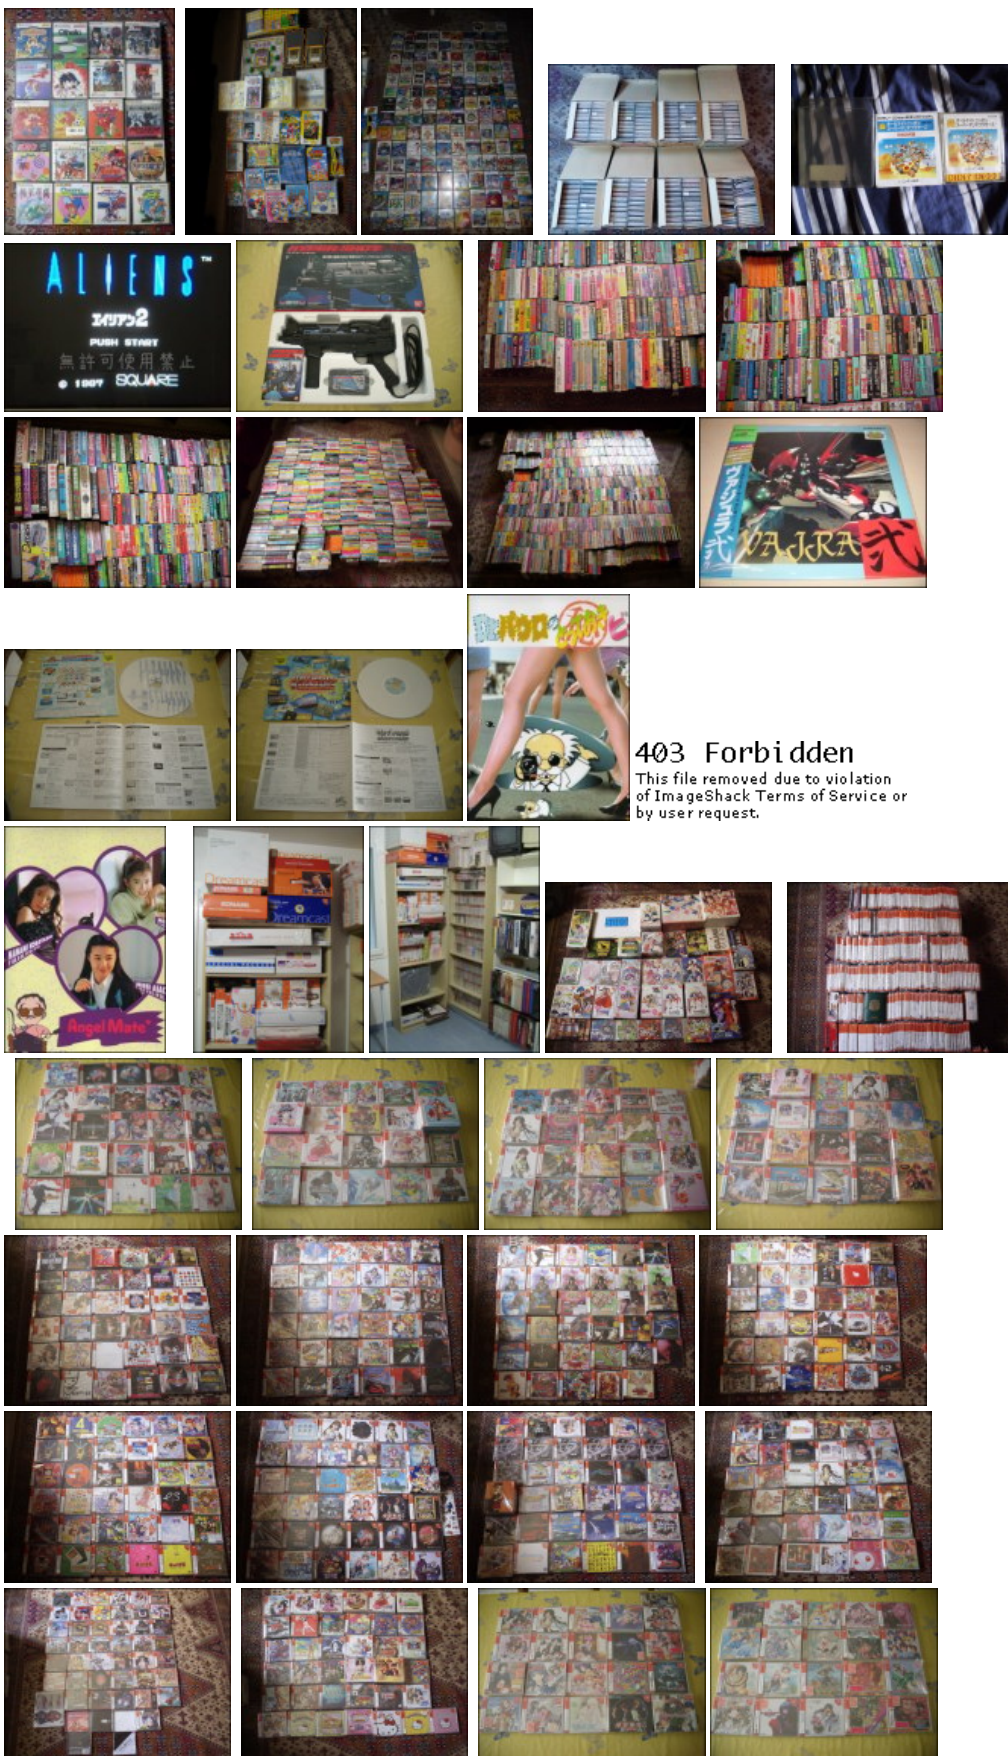

I'll post pictures under this description, please be patient as it could take some days to be able to link all pictures. As well, a little part of the pictures are some years old, and not quite accurate. Force example, the Famicom fullset pictures has not been updated for years, you'd only see around 700 games out of 1050, but be sure i have them all. The other pics are quite accurate, even if they're sometimes some years old though.

You'll find following lists of the games, thanks to all websites i had to use to provide those (i thank each website at the end of a specific system list), i think they're pretty accurate, but if a precise title seems missing, please ask me by email, because it is certainly there.

Thank you

Now the pictures:

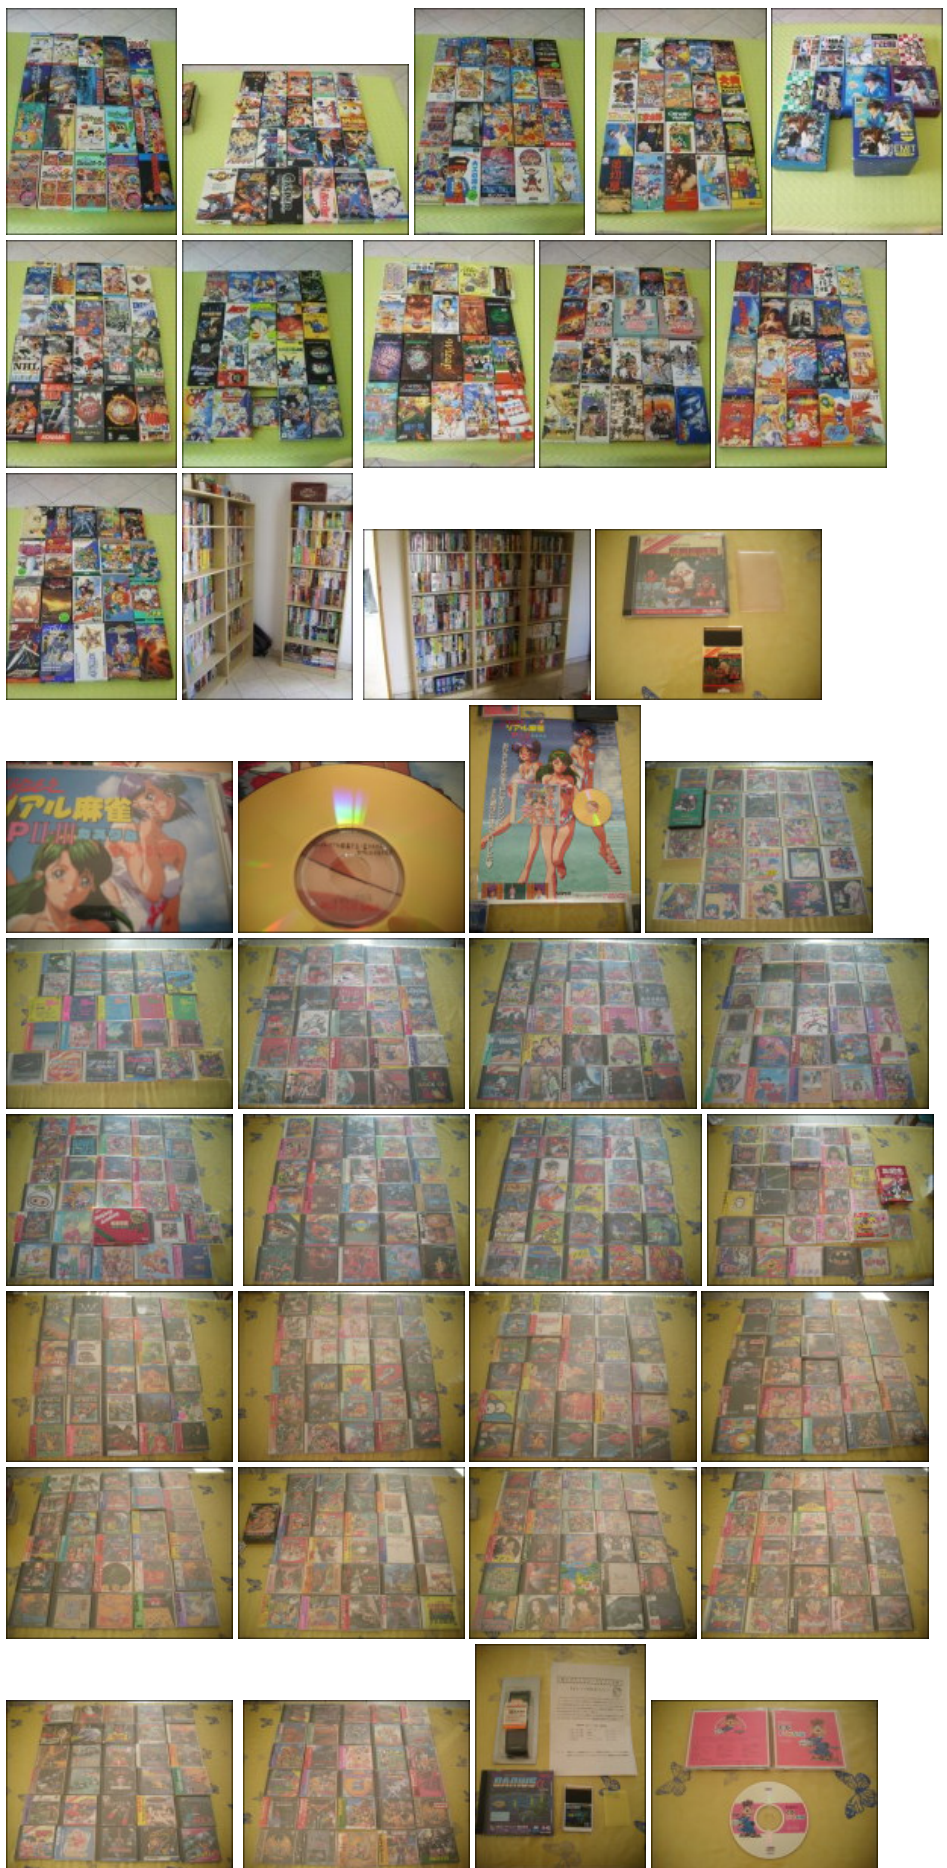

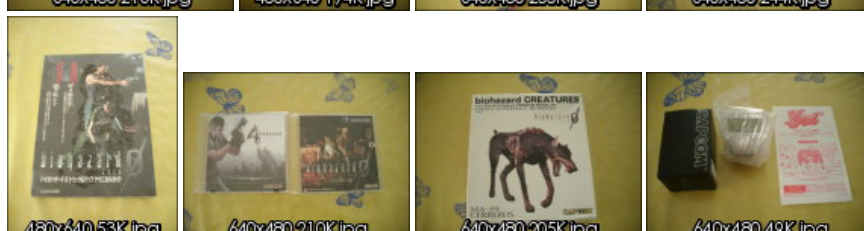

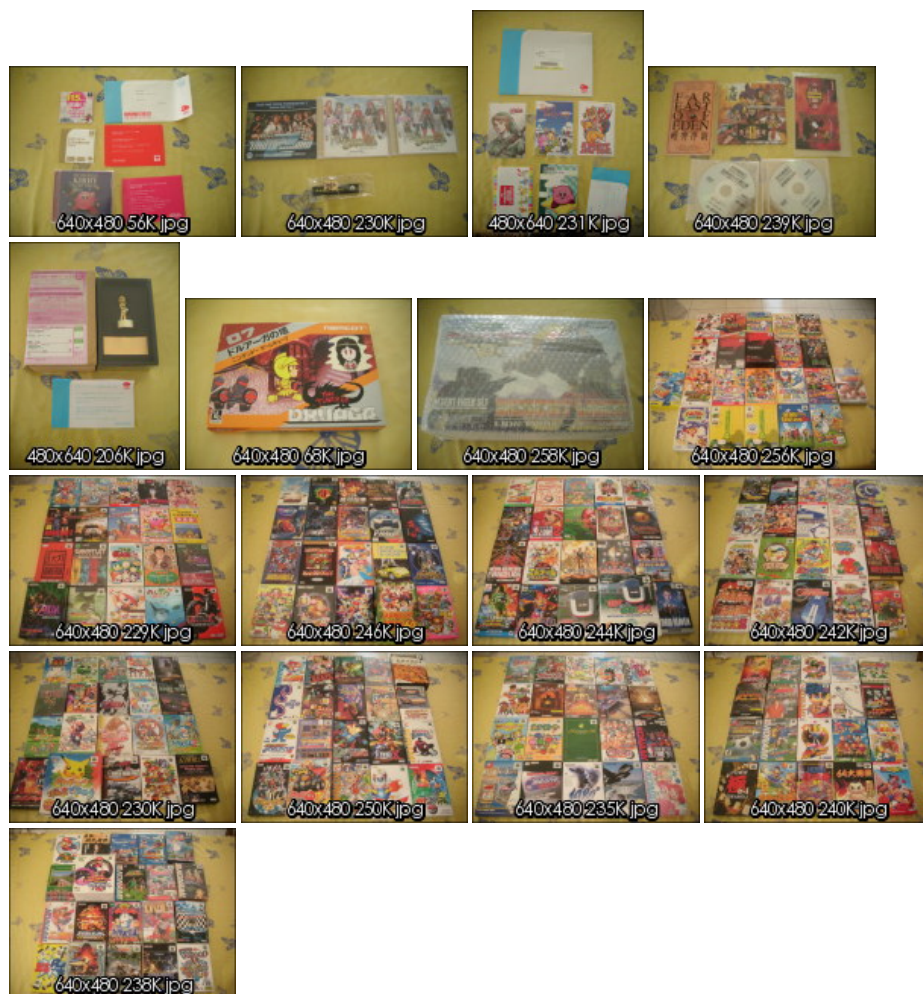

Thanks

Fragen und Antworten zu diesem Artikel

- Frage: salut, Je suis aussi un collectionneur, félicitation pour la collection Si j'ai bien compris, ce ne sont que des versions jap? Pas de pal? Cordialement
Antwort: En effet, je ne m'intéresse qu'aux versions "originales" japonaises, car c'est dans cette nationalité que les fullsets sont de loin les plus complets (la Super Famicom en est un parfait exemple, ou la Nec... [Weiterlesen](#) 08. Jul. 2012
- Frage: Wouldn't it be better to start a kickstarter-project to reach your 1 million € goal, and then donate your collection to a museum? Just my thoughts, because your collection is too impressive to not be shown to the... [Weiterlesen](#)
Antwort: Fine, and where that museum would be? Because very few would accept to donate if the museum isn't at least in their respective country ;) 08. Jul. 2012
- Frage: Hi there, unbelievable collection. Wow! I've heard little about the Shenmue II Dorikore version, but I see it in your collection. Is it something you'd be willing to separate, and can you please pass along any... [Weiterlesen](#)
Antwort: Dorikore version are just platinum/budget releases, second prints who were sold for a cheaper price. Dorikore means "DO-RI-mu-kya-su-to KO-RE-ku-shion" (Dreamcast Collection), just like Satakore stands for Saturn... [Weiterlesen](#) 07. Jul. 2012
- Frage: No Shaq Fu for Mega Drive? Or is this only Japanese Mega Drive?
Antwort: Those are Japanese fullsets. Sega, Nintendo, or Nec are all Japanese brands, and Japanese fullsets are by far the most complete ones, that made sense. Unfortunately, Shaq-Fu never was released in Japan, mother country of... [Weiterlesen](#) 07. Jul. 2012
- Frage: I see you claim to have all Nintendo 64 game releases, but the first game I searched for isn't on your list - James Bond Goldeneye 007. Unless I missed it? That game is an all time No.1 classic.
Antwort: You missed it it is on the pic just before the very last one, link here: <http://imageshack.us/photo/my-images/834/fullsetn64jnpic2.jpg/> last game on the right, 2nd line 07. Jul. 2012
